# MVP Community Resilience Building Workshops

Wednesday, February 17, 2021

10:00 am – 12:00 pm

and

Monday, March 8, 2021

6:00pm – 8:00pm

Please join us for a series of virtual public workshops to discuss your experiences with climate related threats, such as flooding, severe storms, and extreme temperatures. Your thoughts will help to strengthen our climate resiliency plan.

These workshops are a part of Warwick's effort to become a designated MVP Community, and to update its Hazard Mitigation Plan. During the workshops, we will:

- ✓ Review the natural hazards impacting Warwick and how climate change is interacting with these hazards
- ✓ Discuss responses gathered from stakeholder outreach and further outline our strengths and vulnerabilities
- ✓ Brainstorm resiliency actions

**WE NEED YOUR INPUT!**

The workshops will be held via Zoom. Agendas, zoom link, and additional project information will be posted to the Warwick Town website: <http://www.warwickma.org/>

For more information about the project contact David Young, Warwick Town Coordinator:  
coordinator@town.warwick.ma.us / 978-729-3224
